Spend My Time
Clint Black

Spend My Time
By Clint Black
Intro: **C# C#add9 C#**, **F#add9 Ebm F#add9**
(When doing C chord, add pinky to high E string 3rd fret. When doing the Dm, just
like Fadd9 only move your pinky up to the B, 3rd fret)

```
C#                    C#add9        C#          C#add9
How can we know how far the long way can be
C#                         C#add9       C#                  C#add9
Looking from where we are it never seemed that long to me
F#add9             Ebm           F#add9           Ebm
I ve many miles behind me maybe not so much ahead
C#               C#add9           C#           C#add9
Seems I made good time with the directions I misread
```

Chorus:
```
Bbm                   F#            C#          G#
I m gonna spend my time like it s going out of style
   Bbm                F#           C#            G#
I m moving the bottom line farther than a country mile
  Bbm                   F#       C#           Bbm
I still have hills to climb before I hit that wall
F#                                              C#
No matter how much time I buy, I can never spend it all
```

```
C#               C#add9        C#          C#add9
Funny thing that time, we re always running out
C#               C#add9           C#            C#add9
I m always losing mine, there s not enough of it about
F#add9              Ebm           F#add9            Ebm
And though it s always here, it will always come and go
C#               C#add9           C#             C#add9
The days become the years that ll be gone before you know
```

Chorus 2:
```
Bbm                     F#            C#          G#
I m gonna spend my time like it s going out of style
   Bbm                F#           C#             G#
I m moving the bottom line better than a country mile
  Bbm                   F#       C#           Bbm
I still have hills to climb before I hit that wall
```

```
   F#
I won t go quietly into that dark night
F#
There ll be no more burning daylight
```

C#
I ll be living in
      G#
Every moment that I m in

Chorus
 Bbm   **F#**   **C#**   **G#**
I m gonna spend my time like it s going out of style
    Bbm   **F#**   **C#**   **G#**
I ll only use what's mine, I've been saving for awhile
  Bbm   **F#**   **C#**   **Bbm**
I still have hills to climb before I hit that wall
         F#   **C#**
No matter how much time I buy, I can never spend it all

         F#   **C#**
No matter how much time we buy, we can never spend it all
   F#   **C#**   **F#**   **C#**
I'm gonna spend my time. I'm gonna spend my time.
