Stay By My Side
Club 8

Capo 1st

Intro: **Bm C**

```
   Bm                  C
i can not say where my heart is
     Bm                 C
it s all too much in my mind
                  Bm                        C
the experience is gone before it s even here

           Bm                       C
there was love on my mind in the weekdays
        Bm                         C
and a longing for someone in the night
                Bm                         C
it was just a strive for what i can t have

G
stay by my side
C                           G
as we hope for someone to show
                G
don t leave my side
           Bm            C
though it s not what we hoped for

Bm - C

         Bm                              C
you may take what you need when you want to
    Bm                C
and use me up if you wish
                  Bm            C
feelings stay the same as i m asleep

          Bm                      C
there was hope for a sense of belonging
       Bm                     C
and a story was played in my mind
                    Bm                              C
a daydream s just enough for the state that I m in
```

```
G
stay by my side
C                            G
as we hope for someone to show
                G
don t leave my side
            Bm              C
though it s not what we hoped for

Em Bm Em C D

Em              Bm
i don t want feelings
                Em
i don t want songs
  C           D         Em
stuck in my head too long
              Bm
i don t need memories
           Em
to lean upon
         C          D      G
when i know where i belong

C G Bm  C

G
stay by my side
C                              G
as we hope for someone to show
                G
don t leave my side
            Bm              C          Bm
though it s not what we hoped for
```
