

**Lemonade**  
**CocoRosie**

**C**

It was Cinco de Mayo

**Em**

Pillow case on his head

**C**

No more breathing time

**Em**

An ambulance sped

**C**

It sped round every corner

**Em**

Calling out his name

Chorus

**Am** **D**

Shot a rabbit from the back seat window

**G** **Em**

Sat and watched in the summer corn row

**Am** **D**

Ate icecream in a desert dream

**G** **Em**

Got lost in father seeing you

**Am** **D**

Too hot inside to hot outside

**G** **Em**

Lazy days when you said let s go for a ride

**Am** **D**

We ll sail on Spirit Lake,

**G** **Em**

Me, my pappy, and his lemonade

Tim and tina were my parents names

They got engaged they were inflamed

Seduced by the lie of butterflies

How they shimmer, how they glimmer

Those butterflies

We seven kids, we almost died

Nearly put to death

But lightning strike

Instead there was hot pink

Flashes in the sky

We climb the rocks in snowing rain

In search of magic power

To heal our mother s pain

Chorus x2
