On My Mind
Cody Simpson

[[No Capo]]
But it is easier to play if you put your capo on the fourth fret and transpose
it accordingly.

[Intro:] **B**

[Verse 1]

```
    E                              E
Iâ€™m sleeping through the day, Iâ€™m trying not to fade
    G#m                                G#m
But every single night Iâ€™ve just been lying awake
      C#m  C#m                    A       A
Cause I, I canâ€™t get you off my mind

      E                          E
The moment that we met, I didnâ€™t know yet
      G#m                          G#m
That I was looking at a face Iâ€™ll never forget
        C#m  C#m                       A
Cause I, I canâ€™t get you off my mind
   A                      E
I canâ€™t get you off my mind
```

[Chorus]

```
          E                          G#m
Give me the chance to love you
                    G#m          E    C#m
Iâ€™ll tell you the only reason why
      C#m       A           E
Cause you are on my mind
          E                  G#m
I want to know you feel it
        G#m                            E       C#m
What do you see when you close your eyes
      C#m        A
Cause you are on my mind
```

[Verse 2]

```
    E                          E
I wanna be your best, I wanna be your worst
    G#m                      G#m
I want to be the gravity in your universe
      E          E                    G#m
And I, I want to be there to help you fly
              G#m
(I’ll help you fly girl)

        E                        E
Oh, the longer that I wait, the more that I’m afraid
      G#m                            G#m
That someone’s gonna fool your heart and take you away
        E     E       G#m
Cause I, I finally realized
      G#m                    E
That I can’t get you off my mind

[Chorus]

          E                        G#m
Give me the chance to love you
                  G#m          E      C#m
I’ll tell you the only reason why
      C#m      A          E
Cause you are on my mind
          E                    G#m
I want to know you feel it
            G#m                          E      C#m
What do you see when you close your eyes
      C#m      A         E
Cause you are on my mind

[Bridge]

          E                    G#m
Girl, I can’t live without you
            G#m                    E
I can’t think straight without you now
            E
So tell me what should I do
      A              A          E
If I can’t get you off my mind

[Chorus]

          E                        G#m
Give me the chance to love you
                  G#m          E      C#m
I’ll tell you the only reason why
```

```
       C#m       A            E
Cause you are on my mind
        E                    G#m
I got to know you feel it
          G#m                         E     C#m
What do you see when you close your eyes
        C#m       A          E     E
Cause you are on my mind

[Outro]

          G#m
Youâ€™re on my mind
        G#m             E              E
Youâ€™re on my mind all day and night, oh
        C#m      A          E
Cause you are on my mind
```
