Cody Simpson - Wish U Were Here

This is my first tab, I m pretty sure
the chords are right.
These chords are by ear so there may
be a little mistake but it sounds about right.

Okay so there is no specific strumming
pattern, you can do whatever feels right
for you. Listen to the song and figure out
what strumming pattern suits you for the
song. This song is pretty simple and it s
the same four chords throughout the whole
song. The part leading up to the chorus,
when your strumming, you could tap a little
bit between chords, that sounds okay. So anyway...
