

Pearl Of The Stars
Coheed and Cambria

[Intro]

Am G F C G (x2)

[Verse 1]

Each night I wish to God he d let her rest
Oh, this hurts me more than any man can bear
She s my angel from the west
There will never be one to take her place

[Chorus]

When you go I will know
Follow you to the stars
And when the world burns apart
There ll be a place for your car
I d give you everything
If only I d have known you d take it
But you don t, cause you re you
That s why I ll always love you
My pearl of the stars

[Bridge]

The pills she takes, the pain of which she drowns
Our baby sleeps, next door, she s new in town
I tell her how wonderful you were
I ll remember everything you were to me

[Chorus] (x2)

When you go I will know

G **F**
Follow you to the stars
F **Am**
And when the world burns apart
C **F**
