E -x---2---2---3---x---0-						E -x---x---0---1---3---x-					

F can also be x3321x *This song has two guitar parts.
It sounds like the guitar with the capo on 4th does the picking,
and the one with the capo on 2nd does the strumming, so take your pick.
Also, this song is in a weird tuning. I think it s maybe 1/4 step off
because my guitar is in tune with her other songs, but not this one.
So if you think it sounds wrong it s really not my fault, you ll have
to actually TUNE your guitar to the song (which sucks, I know)
or just know you re singing it slightly lower than the original song.*
