

Bullet Proof Vest
Colbie Caillat

Hey there! I was listening to this song and wanted to learn how to play it, but nobody had any tabs for it so I grabbed my guitar and learned it by ear. I know you re probably thinking it s going to sound horrible, but it sounds GREAT! And also I got the correct lyrics because every website has the wrong lyrics.
I heard her singing it live and these are correct.

NOTE: When you see a (~) after a chord only strum once!

Tuning: Standard. No capo.
