Older

Colbie Caillat

D Bm Em

Waited all my life for this day to come

G D

I feel like letting go, life goes on

Bm Em

Wasting no more time, So much to be done

A D

Everything works out, So they say

Em G

Over my shoulder, it s tough getting older

A

Yeah, yeah......

(Chorus)

D

Seems like nothing is black and white anymore

Bm Ea

Shades of grey and I feel a weight over my shoulder

G

It s tough getting older

D

I always thought that I knew where I d want to go

Rm Em

Now I m here and I find that I m still getting colder

G

It s kinda tough getting older

Here before my eyes, many roads ahead Time for me to choose one way now If I take a chance What lies down the road Feeling so confused, turned round On and on, on and on yeah yeah....
