Im Gonna Roll Ya Cold Chisel

Ε No copulation, no revolution Said the young Marquis de Sade But all the whips in France ain t gonna get me Fuckin on a barracade From the schoolboys on it was one big con As we hung around the hockey teams In each boys brain the dream was the same F# All I ever went to do is get laid Now the whole wide world has a better idea And it shook us all to the core You follow some two-year fairy tale F# Into happy evermore The sleepy priest at the bridal feast His hands make a holy sign F# G# And as the bride hoes into the wedding cake She s a-singin in the back of her mind Come on, come on I m gonna roll ya all night long . REPEAT Well I took that crap for a little while And it kept me off the street Then I met me a lady with a shady past

And manners like a dog on heat

Make a noise like a hurricane

Those musos hummin when they see her comin

When you see that line at the dressing-room door

You know she s just spread em for the boys again
Well there ain t nothin better than to rip your sweater
In a bang behind the stage
Or the drawn out sigh as you feel her thigh
Then you stop and estimate her age
If she s turned fourteen she s a rock n roll queen
You can give her anything you choose
And when she whispers Honey it s the money or the box
You know money s so easy to lose
Come on, come on
I m gonna roll ya all night long . . .
