

Louder Than Ever
Cold War Kids

So, this album hasn't quite come out yet, but I heard this song on the radio and decided to try it out. The chords are super easy, but the guitars are tuned down a half-step. Also, I don't think the lyrics are right, but it's my best shot until the album actually comes out and the right lyrics get distributed.

I was counting my cheek; I was diggin' my strange

I was taking you for granted; you were holding the reins

Chorus:

Don't try to pull me out of this; just lay down by me and wait
