

Out Of The Wilderness
Cold War Kids

I m pretty sure these are the chords, but I m not the best at learning a song by ear. I really encourage someone who is good at this to learn this song correctly and submit a more accurate tab.

The crown on my head is heavy on me
E
They wouldn t know it
A
Cos they don t wanna see
A **D** **A**
The skin on my face is turning bright pink
E **A**
As I walk by the girl s choir whispering

A **D** **A**
The street that I walk welcomes my feet

With cryptic graffiti greetings to read
A **D** **A**
The smile on my mouth, it came dirt cheap
E
I bought it second hand

E **F#m** **E** **A**
I will always walk tall
F#m **E**
Taller than the clouds
A
When the rain starts to fall
F#m **E**
I come out of the wilderness
A **D**
To lay by the waterfall

A **D**
The wires to my head

When I press play

Who s this new prophet

Has she got something to say?

(This next part I m not sure on, and is the reason why I want someone to do a
tab of
this song.)
You expect the worst
You always get your way
These big buildings these little girls
Are giving me a little shade
