**Am** **F**

**C**  
studying the lights  
**Am** **F** **C**  
the dreaming of escape will keep you up at night  
**Am** **F**  
but someone had put the flares up  
**C**  
and got me in the rays  
**Am F C**  
so... I guess I d better stay  
**F**  
uh uh no come on you say  
**G**  
it s a fool s gold thunder  
**F**  
it s just a warring rain  
**G**  
don t let the fears just start what if  
**F**  
I won t see you again  
**G** **F**  
around here you never want to sleep all night  
**G**  
so start falling in love, start the riot and  
**Am F C**  
come on rage with me  
**Am**

**F C**  
and we ll be birds  
**Am F C**  
got to make our own key  
**Am F**  
only got this moment  
**C**  
you and me, guilty of nothing  
**F**  
but geography  
**G**  
come on and raise it  
**F**  
come on and raise this noise  
**G**

for the million people  
                                   **F**  
 who got not one voice  
                                   **G**  
 come on it s not over if you  
                                   **F**  
 mean it say loud  
                                   **G**  
 come on all for Love  
                                   **Am**      **F**      **C**  
 out from the underground, away with me  
                                   **Am**  **F**  **C**  
 we don t need words  
                                   **Am**      **F**      **C**  
 close your eyes and see  
                                   **Am**  
 and we ll be birds  
**F**                  **C**  
 flying free  
                                   **Am**  **F**  **C**      (solo)  
 holding on in the mystery  
                                   **Am**      **F**      **C**      **G**  
 fearless go  oh oh oh oh oh oh  
                                   **Am**  **F**  **C**  **G**  
 fearless together  
                                   **Am**  **F**      **C**  **G**
