A Em7  
How long before I get in

D  
Before it starts, before I begin

A Em7  
How long before you decide

D  
Before I know what it feels like

A Em7  
Where to? Where do I go?

D  
If you've never tried then you'll never know

A Em7  
How long do I have to climb

D  
Up on this side of this mountain of mine

[A Em Em D]  
[A Em Em D]

A Em7  
Look up, I look up at night

D  
Planets are moving at the speed of light

A Em7  
Climb up, up in the trees, every chance that you get

D  
is a chance you seize

A Em7  
How long am I gonna stand

D  
With my head stuck under the sand?

A Em7  
I start before I can stop

D  
Before I see things the right way up

G            A                    Bm7  
All that noise, all that sound  
G            A                    Bm7  
All those places that I have found

G                                    Bm  
And birds go flying at the speed of sound  
D                                    G  
To show you how it all began  
G                                    Bm  
Birds came flying from the underground  
F#m                                    G

[A Em Em D]  
[A Em Em D]

A                                    Em7  
Ideas that you ll never find  
D  
Or the inventors could never design  
A                                    Em7  
The buildings that you put up  
D  
Japan and China... All lit up  
A                                    Em7  
The sign that I couldn t read  
D  
Or the light that I couldn t see  
A                                    Em7  
Some things you have to believe  
D  
But others are puzzles, puzzling me

G            A                    Bm7  
All that noise, all that sound  
G            A                    Bm7  
All those places that I have found

G                                    Bm  
And birds go flying at the speed of sound  
D                                    G  
To show you how it all began  
G                                    Bm  
Birds came flying from the underground
