

**Mars**  
**Cole Guerra**

This is my first tab, but it sounds pretty good. Respond if you see anything you don't or doesn't sound right. The correct version is played with a capo on the 3rd fret.

(All the chords are played normally but three frets up because of the capo; you can do the capo but it is hard to sing to then)

(D. is a D chord with the tab xx0030 so you drop your 1st and 3rd strings instead of Sorry for the confusion)

(C. is a C chord with the tab 332010 so you add the 3rd fret on the 6th string instead x32010)

(Eb. is the C. chord but played 3 frets up on the 6th fret, so 665040)

(Remember, you're doing this with a capo on the 3rd fret)
