I wish this whisky

Before she left, now all that's left is

[Pre-Chorus]

Mile by mile and city by city she's

G

Getting over me and man it ain't pretty, no

[Chorus]

F

Am

She's out there rolling down some old interstate

G

Wide open, wide open, couldn't make her stay

F

Am

Probably cranking up some new freedom song

G

Wide open, wide open, won't pick up the phone

F

While I'm dying here tonight

Am

G

Staring goodbye in the face

Am F

Saying I love you too late

G

Too late

Am

I can't take back what

F

I never said but

If I could, man I would

Try and make her see

F

That me and Tennessee want her back

I wish it worked like that, yeah

[Pre-Chorus]

If I had half a clue where she was heading now

I'd do what I had to do to

Make her turn her car around
