

Overkill

Colin Hay

1st verse:

C **G**
I can't go to sleep
A# **F**
I think about the implications
C **G**
Of diving in too deep
A# **F**
And possibly the complications
C **G**
Especially at night
A# **F**
I worry over situations
C **G**
I know will be alright
A# **F**
Perhaps it's just my imagination

chorus:

Am **G**
Day after day it reappears
Am **G**
Night after night my heartbeat shows the fear
Em **F**
Ghost appear and fade away

2nd verse:

C **G**
Alone between the sheets
A# **F**
Only brings exasperation
C **G**
It's time to walk the streets
A# **F**
Smell the... desperation
C **G**
At least there's pretty lights
A# **F**
And though there's little variation
C **G**
It nullifies the night
A# **F**
from Overkill

chorus:

Am **G**
Day after day it reappears

Am **G**
Night after night my heartbeat shows the fear
Em **F**
Ghost appear and fade away....
F
come back another day
