 If I could turn back the hands of time
 I woulda say all the right things
 Just to make sure you re mine
 I m blinded by the light
 I couldn t see the sign
 I took your love for granted
 Thought we was fine
 But now my mine is on you only
 Oh it s so lonely
 And now dat it s been so long
 With no one to hold me
 No one told me
 Dat dis reality would hit soh strong

[Chorus:]
 Now she gone
 No words cuda explain di pain
 Dat mi feeling
 You re forever on my brain
 She got mi bleedin
 And di whole world to blame
 Not she rid di tings could not remain di same
 I hope you find a lot of nice things out there
 Now the memory is all we share
 I tell you again girl you know I care

You just let me know and I ll be there

[Chorus:]

Now she gone
No words cuda explain di pain
Dat mi feeling
You re forever on my brain
She got mi bleedin
And di whole world to blame
Not she rid di tings could not remain di same
I hope you find a lot of nice things out there
Now the memory is all we share
I tell you again girl you know I care
You just let me know and I ll be there

[Verse 1:]

Now it seems like only yesterday
Since you gone away
But den anotha day goes by
I neva meant to make you sad
Or ever treat you bad
I never wanted to see you cry
I should have been there for you
To see this through
The regrets always on my mind
Now it s too late for you
To turn around, oh girl
And see what you ve left behind

[Chorus:]

Now she gone
No words cuda explain di pain
Dat mi feeling
You re forever on my brain
She got mi bleedin
And di whole world to blame
Not she rid di tings could not remain di same
I hope you find a lot of nice things out there
Now the memory is all we share
I tell you again girl you know I care
You just let me know and I ll be there

[Outro:]

Now she gone
No words cuda explain di pain
Dat mi feeling
You re forever on my brain
She got mi bleedin
And di whole world to blame
Not she rid di tings could not remain di same
I hope you find a lot of nice things out there
Now the memory is all we share...
