VERSE

As opposing sides approached through broken words they spoke

It wasn't long before they felt at ease
They shared their cigarettes, what they had they used as gifts
They didn't feel like enemies
With candles lit they stood shoulder to shoulder
And on that field they found true common ground
And as they prayed they dreamed the war was over

CHORUS

If it could happen then, it could happen again
A world torn apart could join hands and hearts
To celebrate his birth and peace on this Earth
If for one magic night we could find again a reason not to fight
Maybe there's a chance; This time it might last.

G **D** **Em** **C**
If it could happen then, it could happen again.
