

Religion

Colton Avery

[Intro]

Gm D#m A#m x 2

[Verse]

Lately I ve been acting numb to ya  
You think I m losing faith  
You pray at night that I won t leave ya  
To that I say no, no, no, way

[Pre-chorus]

This is just an overcast phase  
Valleys and peaks baby  
There s never any need baby  
To doubt what you mean to me

[Chorus]

Cause you shake my bones like the blistering cold  
My idea of heaven is your hand to hold  
Cause you in one day took this weight from my soul  
Showed me you re what my life s been missing  
You save me more than any religion

Gm D#m A#m x 2

[Verse]

Since I met you I ve looked up to ya  
You might find that strange to hear  
But I ain t never met a soul  
Just so beautiful as you my dear

[Pre-chorus]

And I 'm just in an overcast phase  
War with my mind baby  
But through it all there s no time baby  
To doubt whether I want you as mine

[Chorus]

Cause you shake my bones like the blistering cold  
My idea of heaven is your hand to hold  
Cause you in one day took this weight from my soul  
Showed me you 're what my life 's been missing  
You save me more than any religion

Gm D#m A#m x 3

D#m F A#m x 1

[Bridge]

You ask me if I still believe in  
This love that we 've been given  
I say I believe in God even though I can t see him  
You save me more than any religion

You save me more than any religion
