When we were younger we d go down to the park

we d catch all the fireflies we d put em in jars

we never knew that they d die we never really thought that far

Chorus X1

F# B

I m not the kid you knew

F# B

im not the kid you remember

When we were younger we were scared of the dark

so we closed our eyes we pulled the sheets over our heads

we didn t want to see what s there

like the shadows under the bed

And now that I m older I look back on those days

I wish I had them back cuz the shadows are gone

or at least they re not that strong

as the shadows in my head
