LYRICS:

For what it s worth, it s just not worth it
Save it for somebody who truly deserves it
Surely this all can t be real
These clones that can t even feel
Ascend their ladders with ease; so effortlessly

I- I m just trying to get out this time
Know what I m talking about
Cause I heard the same thing a thousand times
Everyday

I fell in love the first time I heard it
I wanted part of it, I thought it was perfect
And then the swarm came along
Taught everybody the song
Their numbers blocked out the sun
What have we done

I- I m just trying to get out this time
Know what I m talking about
Cause I heard the same thing a thousand times
Everyday

If this is who I should be now, I don t want any more
I don t want any more of it
If this is who I should be now, I don t want any more
I don t want any more of it

So you think that you re the next big thing?

I- I m just trying to get out this time
Know what I m talking about
Cause I heard the same thing a thousand times
Everyday

I fell in love the first time I heard it
I wanted part of it, I thought it was perfect
And then the swarm came along, taught everybody the song
Their numbers blocked out the sun
What have you done?
