

## Momos

### Connan Mockasin

This one s fingerstyle - generally alternate between the higher and lower strings on each beat when playing, e.g. (6-x-x-6-6-6) and (6-x-6-6-6-x), or (x-x-3-1-2-1) and (x-1-3-1-2-x); just go with the flow and the rhythm should make sense.

The licks I ve tabbed out are just rough versions (they change slightly); place them where you hear them in the song. In the intro, only the second half of the verse lick is played. The lyrics are auto added and some are wrong, but I m not sure what the correct replacements would be. Cheers!
