I don t give a damn what the doctors say
I ain t gonna spend another lonesome day
I don t want to die in the hospital
You gotta take me back outside

And they don t let you smoke and you can t get drunk
All there is to watch are these soap operas
I don t want to die in the hospital
You gotta take me back outside

Can you get this tube out of my arm
Morphine in my blood like a slow sad song
I don t want to die in the hospital
You gotta take me back outside

Help me get my boots on
Help me get my boots on
Help me get my boots back on
Help me get my boots on
Help me get my boots on
Help me get my boots back on
I gotta go, go, go
Cause I don t have long

D G D x2

Is there still a world out my windowsill
All there ever was I remember still
I don t want to die in this hospital
You gotta take me back outside

Don t know when it s day or when it s night
All I ever see are fluorescent lights
I don t want to die in this hospital
You gotta take me back outside

They give me all these flowers and these big balloons
But I don t wanna stay in this little room
I don t want to die in this hospital
I don t want to die
