Lava Monster
Conor Oberst and the Mystic Valley Band

i am just submiting the rest of the song...

Intro: **C**, **F** (repeat)

```
C                          F
Depression sets in again
      C
I know how that goes
                  F               C  (continues)
Nothing seems to work out anymore
And you hurt so much
Feel so helpless
Want to crawl into a hole somewhere
And just give up
And just give up
And just give up,
But I cant let you
Because you never let me
Let me
You never let me
You never let me

   (fast) G                  Am     (continues)
And you say your life is useless
And you say this is all meaningless
But I, I know that that is just bullshit
Because you will not give up
Because you will not give up
Give up
          F
Because the moment that you do,
I would give up too
                C  F
Thats what Id do
 F              C
Thats what Id do
   C                      F
And its not easy when this happens
Fighting something, that you cant see by

Dont you worry cuz Ill get in there
And take some hits for you
Ill take some hits for you
Ill take them all for you
Ill take them all for you
No more limits
```

No more limits

Take them
Take them
Take them all for

    (fast) **G**   **Am**   (continues)
And I know your lifes not useless
And if theres some way, Id prove it
When the lava comes
I swear, Ill block it
It will not touch you
It will not touch you (you....)
Touch you

     C   **F**
And if the lava monster came,
I would block its flame from hurting you
From hurting you

He will not hurt you
Will not hurt you
Will not touch you
