**Walking In The Winter**
**Coral**

Capo 3rd
--------

```
F#              C#                        G#
We went walking in the winter
Bbm                  G#
It was the coldest
              F#
Time of year
```

```
F#                 C#                       G#
It s where I handed you a letter
Bbm                G#
You turned around
                  F#
I disappeared
```

Chorus:
It said someday
I ll find my way
And we ll go walking
In the winter

It s so hard to make a living
When the world
Is so unkind

But it s not something
That you re given
It s something that
You got to find

It said someday
I ll find my way
And we ll go walking
In the winter

And it s o.k. to close your eyes
Those silver sailing ships
Go sailing by
It s all in your mind
It s gonna be alright
This time

Seasons change
Into summer
Fires burning in the dark

I hope sometimes
You read my letter
And know I had to
Play my part

It said someday
I ll find my way
And we ll go walking
In the winter

And we ll go walking
In the winter
