Skin by Corday
(Standard Tuning)
[Tabbed by Michele Ulerio]

Am **Em**
Come in, out from the cold

Am **Em**
Take off your coat, brush off the snow

Am **Em**
Leave all your bags outside the door

Am **Em**
You won t need them with me anymore

Am **Em**
Skin, I want to get down to your skin

Em **F**
Don t stop me from coming in

E
Take off your skin

Am **Em**
Slip out from your shell, abandon your name

Am **Em**
Peel off your layers, don t be afraid

Am **Em**
Come and lie down, breathe in my breath

Am **Em**
I want to drown, drown in your flesh

Am
Skin, there s nothing between us but

Em **F**
Skin, don t stop me from coming in

E
Take off your skin

Am **Em**
I want to get deeper, I need even more

Am **Em**
I want to dance with your soul, deep in your core

Am **Em**
I try to swim through your eyes and crawl through your kiss

Am **Em**
But I can t seem to reach you your body resists

Am
Skin, there s nothing between us but

Em **F**
Skin, stopping me from coming in

E
Take off your skin

F **E**

Skin, take off your skin

Am **Em**

I wish I could meet you some place other than here

Am **Em**

Where the world would fade and we d both disappear

Am

Skin, there s nothing between us but

Em **F**

Skin, stopping me from coming in

E

Take off your skin

F **E**

Skin, take off your skin

F **E**

Skin, take off your skin
