

**Crush**

**Cory Branan**

This is an excellent song, and for some reason it has never been tabbed on here. This is how I play it. I don't use a capo, but Cory does and it sounds nice capoed in several different places. Just depends on your voice.

Crush

Cory Branan

from The Hell You Say

**C**

That time i mentioned i was moving

**E7**

And you said you d help me move

**F**

I almost went out and bought some shit

**F5**

So i d need your help to move

**C**                    **G7**                    **C**

Cause i got a crush on you

Remember that Halloween when i went as Jimmy Dean

You were a princess, or a gypsy, or whatever

I was James Dean

And i had a crush on you

I get a yes, a no, a maybe

From the magic 8 ball of your mind

I saw your mom s Camaro

Dammit girl you lookin fine

And i got a crush on you

**F**

Day in, day out, same routine

**C**

Better know what you think before you say what you mean

**F**

Same old, same old, season after season

**Am**

**C**

Baby you re the kind of thing i do without reason

Same as first verses:

The sky s an 80 ft. mirror

With a fancy bevelled edge

Couldn t make it any clearer

I m alone on this ledge

Just me and my crush on you

Teen-age hair-dos, bad leather  
Mom s apartment, ethyl cans  
I wa-wa-wa-wa-wanna  
Take you to the dance  
Cause i got a crush on you

Some girls make me reach for the bottle  
Some girls make me reach for the sky  
You got me reaching in every direction for  
Just one good reason why  
I gotta have this crush on you

That time i mentioned i was moving  
And you said you d help me move
