â€œTHE GUN ISN'T LOADEDâ€•

C
C
 I can see you move across the meadow Through the woods
C
 I m gonna be with you one day
C
 I can see you through the shady trees
C **F**
 As gentle breezes blow the autumn leaves around
F
 I ll put a gun up to your head as you undress
F **C**
 And you can guess but you just won t know
C
 I m the only one who understands
C
 You look at life and see it balanced on a knife s edge
G
 I know the gun isn t loaded
F **C**
 If you knew the gun wasn t loaded too

C

C
 I go walking when the wind and rain
C
 Are tumbling down, tumbling down
F
 I go cold while clutching no one s hand
 C
 Oh but what can I do I still want you
 F **C**
 I tried so hard to make you stay
 F **C**
 And now it s time to make you pay
G
 I know the gun isn t loaded
F
 If you knew the gun wasn t loaded
