I'm going back to Burlington, got a ride up 89

D **G D** **Bm** **A**

The engine makes a lonely sound as we drive, on through the night

There's a love lying, waiting for me somewhere

G **D** **A**

I hear it calling for me now

G **A** **Em** **G**

It could be mine if I can get there, somehow

Chorus:

G D A G D A

And I'm so cold, yea I'm so cold

G D A G A Dsus

Hey I'm so cold I guess I'll go back now

Verse

I'm going back to Burlington, heaven knows it's been too long

I see the mountain's distant crown and I know that I've been wrong

Memories pass before me like a movie

They leave their mark upon my brow

My mind is lost in what it could be, somehow

Chorus

Verse

I'm pulling into Burlington with a light, October snow

We're traveling with the dark of night, but my heart knows where to go

Real love rises all around me

It shines its light upon my way
