Subject: Cowboy Boyer & Talton It s Time Chords/Lyrics

Cowboy Boyer/Talton   It s Time   written by Scott Boyer

```
Ebm                                    G#
It s seems I ve found a way to understand you
Ebm                                        G#
And all the understanding I m about to hand you
Ebm                                      G#
It s something that said itself a long time ago
       C# C#maj 7           C#7          F#maj 7
And it s time  we looked it over
     C#                 G#             Ebm
It s time we looked it over and start again
Ebm                          G#
With something we were bound to learn
Ebm                            G#
It s better being used than being burned
Ebm                               G#
And the reasons for the show have all been turned•
       C# C#maj 7           C#7          F#maj 7
And it s time  we looked it over
     C#                 G#             Ebm
It s time we looked it over and start again
       C#         C#maj 7   C#7            F#maj 7
Yes and where we go it      really doesn t matter
       C#          C#maj 7   C#7                 F#maj 7
If we re there you know it s really what we re after
       C#                      G#         Ebm
You can look at what you want and start again
