

This Street That Man This Life
Cowboy Junkies

This is my first tab. Didn't see it on here so I figured it out. Listen to the song if you want the picking pattern. This also sounds pretty good strumming on an acoustic.

C	Am
This street holds its secrets	
C	Am
like a cobra holds its kill	
C	Am
This street minds its business	
C	Am
like a jailer minds his jail	
F	G
That house there is haunted	
C	Am
That door's a portal to hell	
F	G
This street holds its secrets	
C	Am
very well	

second verse same pattern

That man wears his skin
like a dancer wears her veils
That man stalks his victims
like a cancer stalks a cell
That man's soul has left him his heart's as
deadly as a rusty nail
That man sheds his skin
like a veil

Bridge

Dm	G	C	Am
Lord, you play a hard game, you know we follow every rule			
C	C/B	F	G
Then you take the one thing we thought we'd never lose			
Dm	Am	C	F
All I ask is if she's with you please keep her warm and safe			
F	G		
And if it's in your power please purge the memory of this place			

Third Verse same as others

This life holds its secrets
like a sea shell holds the sea,

Soft and distant calling like a
fading memory
This life has its victories but its
defeats tear so viciously
This life holds its secrets
like the sea

The album version just fades on the C Am so just end it where you feel like.
I
usually end on a C.
