

Goodnight Lady
Coyote Grace

Goodnight, Lady
(Joe Stevens)
Originally recorded on Now Take Flight

E
You re heaven s song in the sky above
E **A**
My heavy heart never carried so much love
E
I overflow
E
Walking on these city streets
E **A**
Everyone I meet, they say they know
E
I m like a window

A **E**
I m running from the light
A **E**
But that big ol moon is shining
A **B**
Shining oh so bright

CHORUS:

A **B**
It s just another show
A **E**
It s the only thing I know
A **B**
There aint no other way
E
So, goodnight, lady

Every time that morning come
I stand to greet the sun, I meet the day
And I feel ok
But then the wind right through me blow
I can hardly stand to watch you go, but you re already gone,
In that coming dawn

I can see it for myself

And I ain't the kind of man
Who can't ask for a little help

[CHORUS]

I don't know much of god and grace
But I look in the mirror and finally I see my face
It's been awhile
I ain't too proud to show my pain
To call out loud in the northwest rain and wash my tears away
Till I can smile

I'm feeling everything
And I'll always love you
Oh darlin, that ain't anything

CHORUS:

It's just another show
It's the only thing I know
There ain't no other way
So, goodnight, lady

It's just another show
You're the only one I know
There ain't no other way
So, goodnight, lady
Goodnight, lady
Goodnight
