A cover he does of Dan Bern I believe

Chords:

G [3 2 0 0 3 3] **D** [x x 0 2 3 2]
Em7 [0 2 2 0 3 3] **C/F** [3 3 2 0 1 0]

For the C/F you can hammer on the D string occasionally as he does in the song.

In the C/F the low E string isn't plucked much but is there
Also I would suggest finger-picking along with the track for a cool/best result.

God Said No

I asked God

Do one thing for me

Send me back in time

Send me to Berlin

Let me find

The one they call Hitler

I will stalk him

I will bring him down

I will bring along

A powerful gun

Loaded with bullets

Obliterate his memory

God Said No

If I sent you back

You would get caught up

In theory and discussion

You would let your fears

Delay and distract you

You would make friends

You would take a lover

God Said No

I asked God

Do one thing for me

Send me back in time

Send me to Jerusalem

Let me go
Let me go find Jesus
Let me save his life
As they try to kill him
Let me take him down
Down from the cross
Take the iron from his body
Try to heal his wounds
God Said No
If I let you go
If you really found him
Walking with the cross
You would stare
Your tongue no longer working
Eyes no longer seeing
Ears no longer hearing
God said Time
Time belongs to me
Time s my secret weapon
My final advantage
God turned away
From the edge of town
I knew I was beaten
And that now was all I had
