

Let Her Go  
Craig David

**Ema j7**

You were her only girl  
the most precious thing in her world

**Ama j7**

and I know it makes you cry  
that you never got to say goodbye

**Ema j7**

you were just running out of time  
To say what was on your mind

**Ama j7**

You never wanted her to leave  
And now I know it makes you grief

**C#m7**

**G#m7**

But why don't you celebrate the moments that you shared yeah

**Ama j7**

Cuz now she's watching over you  
It's true

**Ema j7**

And you know it too

**Ama j7**

Just let her go...

**Ema j7**

If you can't take the pain  
Of a broken heart

**Ama j7**

Just let her go...

I know it feels as though hope is gone  
And it hurts to think of moving on  
But she'd never want to see you sad  
Even though I know this hurts so bad

Devoted a life to you  
And helped raise the grandson too  
And now I hope you realize  
That I'll always be there by your side

But why don't we celebrate the moments that we shared yeah  
Cuz now she's watching over you  
It's true

And you know it too

*Chorus*

C#m7 G#m7  
You never knew how much she tried to fight it  
C#m7 G#m7  
And when you needed her around she'd be there  
C#m7 G#m7  
But you can reassure yourself that she's at ease  
Amaj7  
And that's why it's time for you  
To...

*Chorus*

If you can't take the pain  
Of a broken heart  
Just let her go... (just let her go, let her go)

If you can't take the pain  
Of a broken heart  
Just let her go... (just let her go, let her)

If you can't take the pain
