Tuning: Standard (EADGBe) Capo 1
Verse
                Em
32 degrees on a winter s day
                 Em
Think about it for a second
                      Em
And feel the cool, cool breeze on your neck and then
                        Em
Think about it for a second
                            \mathbf{Em}
If there ever was a day that you should get away
                        F
I feel it in my bones I think today s the day
Bridge
And you can t back down
                    G
                               Dm
Take the chance to leave behind
            G Dm
A single dance in the snow
Between the trees
You will know the sound of nothing
Chorus
                  Em
Come away on this winter s day
We are going to ride again whoaaaaa
And buckle in get you suited up
                                             G
Its time to fly
```

Interlude

Verse
С
              Em
82 degrees on a summer s day
                            F
Take a minute and remember
                                                  C
with the cool, cool breeze in your head again
Take a minute and remember
                                                    Em
