SONGS OF THE UNFORGIVEN

I love this album, but after growing
tired of trying to find any guitar tabs
for it I decided to do it myself.

Note: The notes that are bracketed
are bass notes, usually quickly played
during your transition into the next
Chord.
They don t have to be played, but can
add to the song if you do.

SONNET 1 (AND WHEN THE SUN GOES DOWN)

Intro:
D|--6--
(The note played just before the first chord)

C# F# C#

C#   G#   C#
And when the sun goes down into the sky,

  C#   G#
Together we shall sit and shall sup,

      A#m   G#
And we shall eat, and drink the heady wine,

C#   F#   C#
Let us share the over-flowing cup.

(Repeat chords until...)

   A#m   F
So let us walk and feel the cooling breeze,

  F#   A#m
Until they re just forgotten memories.

AND SO WILL ALWAYS BE

```
Intro:
G D Em D

Verse:
G D Em C x3

G                              D
These things will be the way they will,

Em                     Am      Cm
And I will be this me.

Ends on Cm.

SONNET 3 (THE COLD IS HERE)
--------------------------

Intro:
E A E

     E                                A
The cold is here the woods are full of snow,

     E                             B
The river with its crusted banks of ice,

   A                        B
Bespeak of winter drownings long ago,

     E                    A           E
The chest pressed tightly, as though in a vise.

(Repeat until ending...)

Ending:

     C#m                          A
And in the graveyard cold old bones do lie,

     E           B              E
And far above the stars light up the sky.
