

I Feel Free Solo
Cream

This tab is 90%-100% correct. I just watched the youtube video for the bits that were difficult.

UPDATE/CORRECTION: This tab is now at least 95% correct, as of the 29th of May 2007.

It s in E MAJOR. That is why the other tabs are somewhat off. Although, it does change to E blues near the end. Standard tuning. Almost every note is vibrato.

++ This beginning note is ambiguous, it sounds like he just plays the 14 fret but in the video (which is mimed) he bends from the 13th.

(listen to the record very carefully for that end bit -
you have to bend with your first finger to get the
strained bend sound)
