OUTRO:
------
Start by playing PART 2 of the bridge twice, then
you just play the intro, but is has some echo so
it sounds kinda strange. You can try playing it
something like this:

E|-------------------------0-----------------|
B|----------6-------6---------6-----6-------6--|
G|----7p5-----7p5-----7p5-------5-----7p5------|
D|-0------0-------0-------0-------0-------0----|
A|--------------------------------------------|
D|--------------------------------------------|

...then just fade out!
```
