OBS:. Quando for fazer o slide da  $6^a$  para a  $4^a$  casa da segunda corda, não deixar soar a nota da  $6^a$  casa, apenas o som do slide e soar a  $4^a$  casa, ouça a música que você vai entender, é uma puxada rápida onde só se ouve o slide e a nota da  $4^a$  casa a  $6^a$  casa é uma nota fantasma.

Ao terminar a introdução o acorde de C que finaliza a introdução já é o início da música.

Obs:. Se for tocar com violão a sonoridade pode sair meio estranha, e ao ouvir a música pode parecer fora, porém se tocar com uma guitarra clean e um reverb verá que esta certinho, tem uma diferença de sonoridade.
