

Butterflies
Crimpshrine

The recording is a little out of tune, but it s closer to standard E tuning than it is to Eb.

Eb **G#**
When I was younger I chased butterflies
E **Eb** **C#**
now I look around and realize
B **A** **E**
there ain t no butterflies around here no more.

Now theres more people everywhere,
and on ground that once was bare
they ve built condos and shopping malls.

F# **G#**
and on streets I walked where the sun shined
E
shadows grow as buildings climb,
B **A** **C#** **Eb E**
and I get older getting colder every day.

The concrete stretches for miles
They put it up in different styles,
but it still looks pretty ugly to me....

[riff]
C# F# E

[whistling part]
C#
C# Eb E
E Eb B
A E

What a Pity, They ve fucked up this city
where I grew up.
Now it s grown too big and there s no room left for me.

The rest is a repeat of these parts. End on A.
