      C   Am
      In an upstairs room in Blackpool, by the side of the northern sea

      C   Am
      The army had my father, and my mother was having me

      F   Am   F   Am
      Military madness was killing my country

      Solitary sadness comes over me

      C   Am
      And after the school was over, and I moved to the other side

      C   Am
      I found another country, but I never lost my pride

      F   Am   F   Am
      Military madness was killing the country

      F   Am   F   C   C(add D)   Csus   C   Am   Em7   Am   /
      Solitary sadness creeps over me

      C   Am
      And after the wars are over, and the body count is finally filed

      C   Am
      I hope that man discovers, what s driving the people wild

      F   Am   F   Am
      Military madness is killing the country

      So much sadness between you and me
