

My Favourite Changes
Crosby, Stills & Nash

My Favourite Changes

Intro: **G**

G **Dm**
This is my favourite set of changes
F **C**
Already good for a couple of songs
Am **G**
Thought I might play them one more time and over again

G **Dm**
Makes me go back to the trouble I got into
F **C** **Am**
Tryin to live up to what they said I lucked into
G
At twenty-five

C **Em7** **G**
And this part reminds me of my lady, she loves me she s waitin at home
C **Em7** **G**
And the baby she s makin I tell you it s frightenin how she trusts me so
C **Em7** **G**
And all of the sad times the bitter taste left by the struggle to grow
Must my baby know the blues

So if you re still listenin I hope you ll remember
The kid with the big white guitar
And all the sad stories to tell

I think it s high time I went home she ll be worryin and missin me so
How long can I let it drive me crazy this music won t let me go
But here I stand tryin so hard to find one more clever line
For this song of mine but I can t seem to find
Anything that will rhyme with my favourite changes
