

Home is where the heart is

Em **G**

That s what somebody once said

Em **G**

I think you re heart is where your love is

Cadd9 **D**

Aw the rest babe, the rest is all in your head

[Verse 3]

Memories, are overrated

All they do is get you down and frustrated

Who needs that on your back

Startin over, cold turkey

Washing your soul of everything that s dirty

Seal your heart of every crack

[Chorus 3]

You re no longer sick and tired

Everything around you feels brand new

The days fly by, the nights could be longer

Everyday you re just a little bit stronger

Now that you ve spread your wings and flown - back to home

[Outro]

Back to home

Back to home

Back to home..
