

Right Now  
Cross Point Church

[Verse 1]

Right now, we need to hear You speak  
Right now, we need to feel Your peace  
And we believe there s power in Your name  
And You will come every time we pray

[Chorus]

We want to know the God of impossible  
Let us see Your fire fall down  
We want to watch You move in miracles  
As You did then, here right now

[Verse 2]

Right now, Your grace flows like a flood  
Right now, there s healing in the blood  
And we believe there s power in Your name  
And what was dead can walk out of the grave

[Chorus]

We want to know the God of impossible  
Let us see Your fire fall down  
We want to watch You move in miracles  
As You did then, here right now
