

City Girl  
Crush Luther

C    Am          G  
You stand ground like a warrior  
C    Am                  G  
The way you listen like you ve never heard anything.  
C    Am    F                  C  
And the worst is you hold my hand.  
C    Am  
You re like nobody I ve ever known  
F                                  C                  Am G  
But I ain t no city boy.

C    Am                  G  
I don t mind how you re knowing me  
C    Am                  G                  C  
The way you re acting, how you never stop holding me.  
C    Am    F                  C  
And the worst is you use both hands  
C    Am                  F  
City girls aren t supposed to though.

Am    F                  C  
So if we re in love, I suppose  
Am    F                  C  
I m out of here before I get too close.  
                Am                  F                  C  
And if we re in love, I suppose  
Am    F                  C                  Am G  
You re the worst city girl I ve known.

C    Am                  G  
If I m one, and one and two is me and you  
C    Am                  G  
Then three s a place I swore I d never get to,  
C    Am    F                  C  
And the worst is you changed my mind.  
C    Am  
I ve never been much the nervous kind  
F  
But you ain t nervous.  
C    Am                  G  
It s a fast world where you re from, you speed along  
C    Am                  G  
Makes you run so fast you can t focus on.  
C    Am    F                  C  
And the worst is, no, I change my mind  
C    Am                  F  
The best is I still get all your time.

**Am**                    **F**                    **C**  
So if we re in love, I suppose  
**Am**    **F**                    **C**  
I m out of here before I get too close.  
                  **Am**                    **F**                    **C**  
And if we re in love, I suppose  
**Am**    **F**                    **C**                    **Am G**  
You re the worst city girl I ve known.

**Am**    **F**  
So shame on me for getting too close.  
**C**    **Am**                    **G**  
Shame on you and your bedroom window  
**C**    **F**  
And your body so close to me,  
**C**    **Am**                    **G**  
I shudder and I dream of the city.  
**Am**                    **F**  
All along the way  
**C**    **Am**                    **G**  
You ve been nothing but trouble  
**Am**                    **F**  
Oh, but somehow here we are.

**Am**    **F**                    **C**  
So if we re in love, I suppose  
**Am**    **F**                    **C**  
I m out of here before I get too close.  
                  **Am**                    **F**                    **C**  
And if we re in love, I suppose  
**Am**    **F**                    **C**                    **Am G**  
You re the worst city girl I ve known.
