

I Want A Bird
Current Swell

Hey all, I noticed that this amazing song wasn't on this site, so I watched some live versions and figured it out the best I could. I hope you guys find it correct.

G **C** **G**
I want a bird, I want a bird, to sing that song for me
G **C** **G**
I'm just sitting here, sitting here, waiting all impatiently.
G **C** **G**
If that bird, and if that bird, sings that song for me,
G **C**
Then I will try to set her free.
G **C**
A bird can fly when she wants to leave.
G **C**
But when she decides now to stay with me,
G **C**
Then I will know it was meant to be, yeah.

G
I've been searching, all my whole darn day,
C
Looking for what I can find,
G
When a sweet little bird came and flew my way,
C
And said, hey mister do you mind?
G
If I could sit right here, beside you,
C
And I sing my favorite song?
G
And if you don't enjoy my company,
C
Then I'll just ramble on.

G
I want a bird, (I want a bird)
C **G**
To sing that song for me, yeah
Em
I'm just sitting here, (sitting here)
C **G**

Waiting all impatiently,

G
