

**Rusty Chevrolet**  
**Da Yoopers**

Verse 1, Chorus, Verse 2, Chorus, Verse 3, Chorus (x2)

To the tune of Jingle bells.

[Verse 1]

**G**

Dashing through the snow

**C**

In my rusty Chevrolet

**Am** **D7**

Down the road I go

**G**

Sliding all the way

I need new piston rings

**C**

I need some new snow tires

**Am** **G**

My car is held together

**D7**

**G**

By a piece of chicken wire

[Chorus]

**D7 G**

Oh, rust and smoke

The heater s broke

The door just blew away

**C** **G**

I light a match to see the dash

**A7** **D7**

And then I start to pray...

**G**

The frame is bent

The muffler went

The radio s okay

**C** **G**

Oh, what fun it is to drive

**D7** **G**

This rusty Chevrolet

[Verse 2]

**G**

I went to IGA

**C**

To get some Christmas cheer

**Am D7**

I just patched up my left front tire

**G**

And it s gettin hard to steer

Skidding down the highway

**C**

Right past the county cops

**D7**

I have to drag my swampers

**G**

To get the car to stop

[Chorus]

**D7 G**

Oh, rust and smoke

The heater s broke

The door just blew away

**C**

**G**

I light a match to see the dash

**A7**

**D7**

And then I start to pray...

**G**

The frame is bent

The muffler went

The radio s okay

**C**

**G**

Oh, what fun it is to drive

**D7**

**G**

This rusty Chevrolet

[Verse 3]

**G**

Bouncing through the snow drifts

**C**

In a big, blue cloud of smoke

**D7**

People laugh as I drive by

**G**

I wonder what s the joke

I have to get to Wal-Mart

**C**

To pick up my layaway

**D7**

Cause Santa s comin soon

**G**

In his big, old, rusty sleigh

[Chorus] (x2)

**D7 G**

Oh, rust and smoke

The heater s broke

The door just blew away

**C**

**G**

I light a match to see the dash

**A7**

**D7**

And then I start to pray...

**G**

The frame is bent

The muffler went

The radio s okay

**C**

**G**

Oh, what fun it is to drive

**D7**

**G**

This rusty Chevrolet
