

Digital Love

Daft Punk

There are very accurate tabs for this song already, but they are pretty difficult to and I wanted something lighter, just for fun, something chordy . So here it is; I took the chords used in one of the tabs for this song and got common chords out of them. No capo needed.

The chords used through the whole song are: D C#m F# E - But I particularly dislike when no lyrics and etc so...:

D C#m  
Last night I had a dream about you

F# E  
In this dream I m dancing right beside you

D C#m  
And it looked like everyone was having fun

F# E  
The kind of feeling I ve waited so long

D C#m  
Don t stop come a little closer

F# E  
As we jam the rhythm gets stronger

D C#m  
There s nothing wrong with just a little little fun

F# E  
We were dancing all night long

D C#m  
The time is right to put my arms around you

F# E  
You re feeling right, you wrap your arms around too

D C#m  
But suddenly I feel the shining sun

F# E  
Before I knew it this dream was all gone

D C#m F#m  
Ooh I don t know what to do

E D C#m  
About this dream and you

F#m E  
I wish this dream comes true

D C#m F#m
