

Fragments Of Time

Daft Punk

So I m giving the basic chords I hear from the electric piano on the downbeat of every measure. When I play it, I extend chord voicings to 7s,9s, and 13s. I also turn the Am into an A7 one beat before it goes to a Dm. These are all totally optional things. I included them in parenthesis, so if you just want standard chords, ignore everything in parenthesis.
